

**Assessment of Student Engagement in a Digital Learning Environment**

Criteria	Emerging "I'm not doing this yet" "I'm just getting started and learn best with help"	Developing "I am working on developing in this area" "I'm starting to do more on my own"	Proficient "I do this well" "I get it and I can do it on my own"	Extending "I do this very well" "I go beyond what is expected"
<b>How I Communicate</b>				
I consider diverse perspectives when connecting and engaging with others				
I actively listen to my peers, allow all voices to be heard, and take turns in discussions				
I help build the learning community by participating (in writing or orally) in the classroom activities and discussions				
<b>How I Collaborate</b>				
When asked, I collaborate with my peers productively to accomplish learning and tasks				
I present questions that demonstrate my sense of wonder and curiosity and attempt to involve others to join in the discussions				
<b>Actions I Take</b>				
I complete all of my assignments to the best of my ability				
I check the learning platform regularly so that I am up to date on my work				
I initiate my own learning, attempt to solve problems on my own, ask peers for clarification, and consult the teacher when in doubt. I communicate with my teacher regularly. e.g.: I ask questions to clarify my understanding				
I begin assignments promptly and work towards meeting deadlines. When I cannot finish by the due date, I communicate this to the teacher. I complete and submit work on or before the due date
